

2016 Influenza Vaccine Program

***Your Hy-Vee Health & Wellness Team will be offering flu shots on
Tuesday, October 4, from 12:30 to 2:30 p.m. at Arbor Gardens of Eyota.***

Why should I get vaccinated?

Influenza is a serious disease that can lead to hospitalization and sometimes even death.

An annual flu vaccine is the best way to reduce the chances that you will get seasonal flu and lessen the chance that you will spread it to others.

Who should get vaccinated?

Everyone who is at least 6 months of age should get a flu vaccine this season.

Hy-Vee is offering the vaccine to those over the age of 6 years.

Which vaccine is offered?

Hy-Vee is offering a quadrivalent influenza injectable vaccine, which includes 4 strains.

High-dose trivalent injectable vaccine is available (and recommended) for those over the age of 65 years.
